

XXIII International Congress of The Transplantation Society

AUGUST 15 – 19, 2010 | VANCOUVER, CANADA
VANCOUVER CONVENTION CENTRE

PLENARY PROGRAM

PLENARY 1 Monday 16 August	PLENARY 2 Tuesday 17 August	PLENARY 3 Wednesday 18 August	PLENARY 4 Thursday 19 August
Topic: The Genome and Beyond	Topic: Allorecognition and Tolerance	Topic: Stem Cells and Regeneration	Topic: Innovations in Immune Suppression
Chairs: Jeremy Chapman, Australia Marcelo Cantarovich, Canada	Chairs: Gerhard Opelz, Germany Lori West, Canada	Chairs: Kathryn Wood, UK Lee Ann Tibbles, Canada	Chairs: Greg Knoll, Canada TBC

Lecture 1 • (08:30 - 09:00) Basic Science

Dr. Leroy Hood <i>Seattle, USA</i> Vision and Future of Systems Biology	Dr. Philippa Marrack <i>Denver, USA</i> Why is the Alloresponse so strong?	Dr. Hans Schöler <i>Münster, Germany</i> Generation, Programming and Applications of Induced Pluripotent Stem Cells	Dr. Jeff Bluestone <i>San Francisco, USA</i> miRNA in Immunity and Transplantation
--	---	--	---

Lecture 2 • (09:00 - 09:30) Translational

Dr. Jack Greenblatt <i>Toronto, Canada</i> Beyond the Genome	Dr. Christian Larsen <i>Atlanta, USA</i> Inducing Transplantation Tolerance	Dr. Doris Taylor <i>Minneapolis, USA</i> Advances in Regenerative Biology and Organ Biogenesis	Dr. Petra Reinke <i>Berlin, Germany</i> Guidance of Immunosuppression by Biomarkers
---	--	---	--

Lecture 3 • (09:30 - 10:00) Clinical

Dr. Manikkam Suthanthiran <i>New York, USA</i> Monitoring Allograft Status in the 21st Century: A Noninvasive Molecular Approach	Dr. David Sachs <i>Boston, USA</i> Tolerance in Clinical Transplantation	Dr. Shaf Keshavjee <i>Toronto, Canada</i> Lung Repair, Regeneration and Transplantation	Dr. Roslyn Mannon <i>Birmingham, USA</i> Current Advances in Clinical Immunosuppression
---	---	--	--
